I IMPORTANT SAFEGUARDS

- 1) If the power cord is damaged, do not touch the cord with your hands to avoid danger;
- 2) The in-car mode can only be used when the car is started. After turning off the engine, be sure to turn off its power and unplug the car power cord;
- 3) The product should not be transported or loaded with acid corrosive items, and the product should not be wiped with corrosive solvents;
- 4) Do not block the vents during normal use;
- 5) Use this product in strict accordance with the instructions, do not disassemble the internal parts without permission;
- 6) The products should be stored in a clean place that is easy to ventilate, and 10cm ventilation ducts should be reserved around, so as to avoid placing or exposing the products in rainy places or places with heat sources, such as electric furnaces, petroleum gas furnaces, heat pipes or flaming sunlight;
- 7) If there is standing water in the mini fridge, it should be cleaned regularly;
- 8) Fresh meat should not be refrigerated in the fridge. It is more suitable to store frozen food and beverages;
- 9) In order to keep the internal items fresh, please do not open the door frequently, and the time of opening the door should not be too long;
- 10) Supervision should be given to children to ensure that they do not play with the machine.

NOTES ON THE CORD PLUG

This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug will fit in a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not modify the plug in any way.

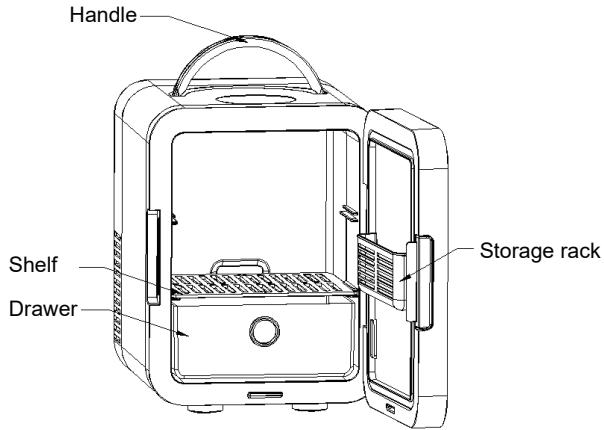

PRODUCT DESCRIPTION

- 1) This product can be used for refrigeration. With a simple design and compact size, it is easy to carry. The low power consumption facilitates long service life and efficient refrigeration, which makes it a good helper in home and on the go.
- 2) Fully embodying the concept of "green and environmental-friendly", this product adopts semiconductor refrigeration technology that gets rid of the bulkiness of compressor and refuses the use of refrigerant, thus avoiding noise and fluorine pollution. It is a pollution-free environmental protection refrigeration product.
- 3) Featuring lightweight, multifunctional and mini size, this product is especially suitable for drivers, tourists, migrant workers, singles, mothers, office workers, students, etc.
- 4) This product has simple structure, long service life, convenient maintenance, low power consumption and strong earthquake resistance.

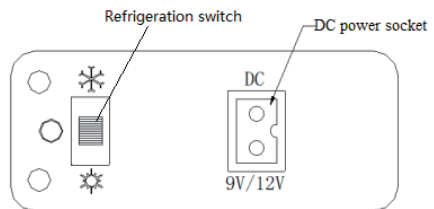

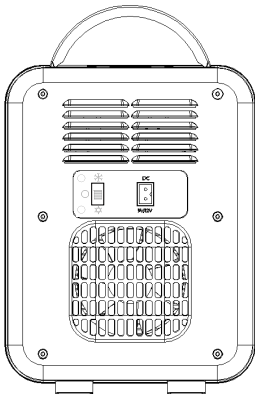

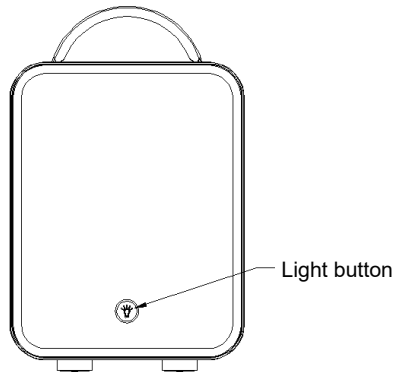

PRODUCT PARAMETERS

Product name: Mini Fridge	SKU: ZX-PFM-5F/ZX-PFM-5B
Rated voltage: 9VDC or 12VDC	Rated power: Cool 23W, Heat 19W Or Cool 36W, Heat 33W
Refrigerant : semiconductor refrigeration	Cooling temperature: $\geq 53.6^{\circ}\text{F}$ lower than the current ambient temperature (ambient temperature 77°F)
Heating temperature: Heat up to $122\pm 50^{\circ}\text{F}$	

I KNOW YOUR MINI FRIDGE

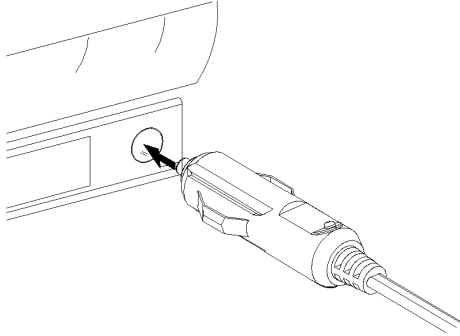

*Storage rack and drawers should not be placed on the same level, so that the refrigerator door cannot be closed

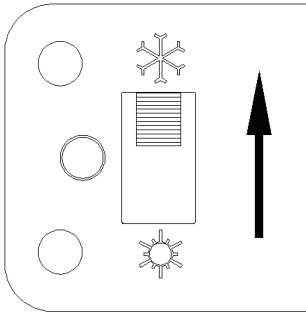

OPERATION INSTRUCTION

1. Use under the in-car power supply (DC 12V)

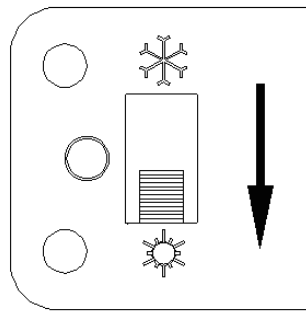

(1) The cigarette lighter head of the in-car wire of the mini fridge is directly inserted into the car cigarette lighter jack

(2) Set the mini fridge to "cool or heat" state,

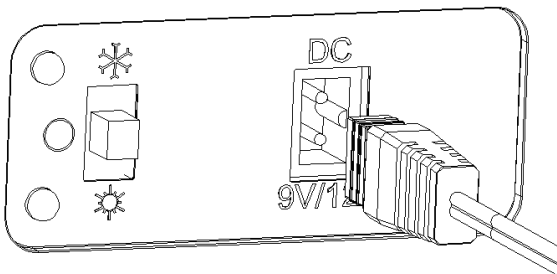

Cool: Green indicator lights up

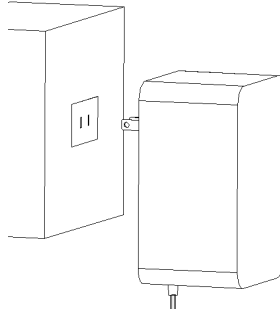

Heat: Red indicator lights up

(3) Align the car power cord with the car power outlet (DC12V), and insert it to the end

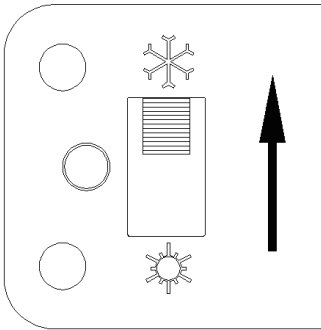

2. Use of an adapter (DC 9V)

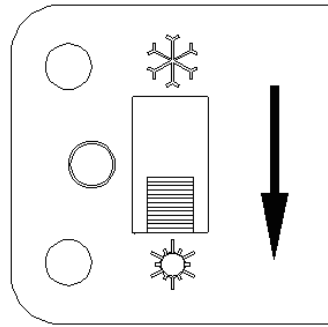

(1) Plug one end of the adapter into a household outlet

(2) Set the mini fridge to "cooling or heat" state

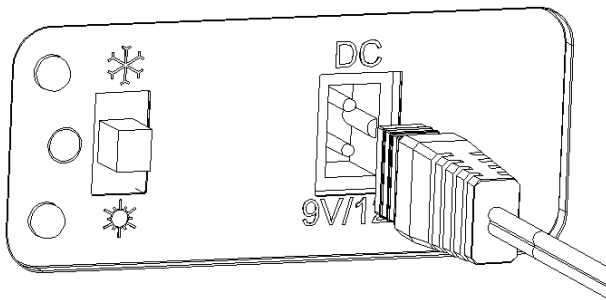

Cool: Green indicator lights up

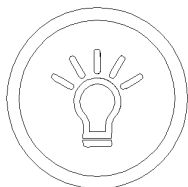

Heat: Red indicator lights up

(3) Insert the other end of the adapter into the DC outlet of mini fridge

(4)Light function:

When the front ring light is turned on, lightly touch the light button. Touch the button once to light up the LED light, the default brightness is 30%, the second touch brightness is 60%, the third touch brightness is 100%, and the fourth touch is to turn off LED.

I Usage tips

1. The closer to the cooling position, the better the cooling effect;
2. Choose metal cans for ice drinks cooling, the effect will be better;
3. To keep fruits like watermelon fresh, first cut it in half, seal it with plastic wrap, and then place the flat surface close to the inner wall of the fridge;
4. To keep the dishes fresh, first put the food in a flat-bottomed stainless steel plate, cover the dishes with plastic wrap, and then place the entire flat bottom of the plate close to the inner wall of the fridge;
5. Cosmetics and medicines should be refrigerated and spread evenly on the inner wall of the refrigerator. The closer to the refrigeration position, the better the refrigeration effect.

I Applicable scene

- 1.**Applicable occasions:** vehicle, household, yacht, office, dormitory, cosmetics store, etc;
- 2.**Suitable for refrigerated items:** fruits, bottled/can drinks, tea, medicines, breast milk, cosmetics, etc.;
- 3.**Not suitable for refrigeration:** frozen food such as ice cream, chemical reagents, fresh meat (cooked food can be stored for 5-8 hours)

I GENERAL TROUBLESHOOTING

1.If the mini fridge fails to power on, please take the following measures:

- 1)Check whether the power cord is well connected with the power socket;
- 2)Check whether the mini fridge is turned on;
- 3)Check whether the switch is in the correct position;
- 4)Check whether the cigarette lighter is turned on, well connected or if its base is contaminated, please clean it with a non-metallic brush.

2.If the cooling effect is not good, please take the following measures:

- 1)Check whether the fan is running normally. If not, please replace the fan. It is recommended to clean the fan every 3-6 months;
- 2)Touch the 4 screws inside the mini refrigerator with your hand to see if they are cold. If not, replace the refrigeration sheet.

I CLEANING AND MAINTENANCE

* You must first turn off the switch, pull out the plug, and cut off the power supply;

* Use a soft cloth with a little detergent to wipe the dirt and dust on the surface of the machine, and the inside of the machine can be gently wiped with a soft warm cloth;

* Do not directly shower or clean the body with water, especially switch sockets, ventilation ducts and other parts of the body. Do not splash the machine with water, otherwise it will cause damage to product parts, and there is a danger of electric shock.

I SERVICE

Please call our customer service hotline if you encounter problems during use.

Welcome to use the vehicle-used series products. Please read this manual carefully before using it, pay special attention to "IMPORTANT SAFEGARDS", and save this manual for future reference.

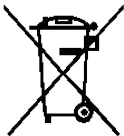

If this product is given to others, please give it together with this instruction manual.

The upgrade and specification of this product are subject to change without notice. The form and color of the actual product may be slightly different from those shown on the manual, please understand!

I GUARANTEE

The customers can contact the after-sales, explain the reason for the return and reach an "Agreement on Returning Goods". Customers who purchase the product will enjoy the comprehensive service in accordance with the relevant national regulation "Provisions on the Liability for the Repair, Replacement and Return of Some Commodities".

I ENVIRONMENT FRIENDLY DISPOSAL

You can help protect the environment!

Please remember to respect the local regulations: hand in the non-working electrical equipment to an appropriate waste disposal center.
